Work Experience

Community Center Assistant

University of Michigan Ann Arbor (Part-Time)

Ann Arbor, MI

September 2023 - Present

- Provided excellent customer service and attention to actively respond to dorm residents' needs and concerns.
- Followed proper procedures set by the University of Michigan Housing regarding the key management system and organizing mail/packages.
- Responded promptly to telephone, email, and in-person inquiries with quality service skills and follow-up to ensure resolution.

Pool Lifeguard (Seasonal)

Fullerton YMCA (Part-Time)

Fullerton, CA

July 2022 - August 2023

- Maintained the quality of the pool by conducting chemical tests to ensure the safety of swimming.
- Warned recreational participants of unsafe areas, imbalances in the pool, non-permitted conduct, and severe weather.
- Supervised 50+ swimmers daily, recognized various emergencies, and ensured compliance with safety policies and procedures.

Intern

DXP Enterprises

Anaheim, CA

July-August 2021

- Contacted multiple suppliers and manufacturers to help promote various industrial products from DXP Enterprises.
- Utilized bidding software and Adobe Acrobat to help organize technical information about hydraulic products for the project management team.
- Learned different methods and tools for building/breaking apart pumps, cleaning hydraulic products, and packaging materials.

Extracurriculars

Asian Business Conference

Associate Director of Technology Panel

Ann Arbor, MI

September 2022 - Present

- Secured high-level executives and business leaders working in Asia's tech industry for the Asian Business Conference.
- Collaborated with other associate directors in the technology panel on ideas to refine and include important topics related to the economy, technology, and Asia.

Product Management Club

Product Manager (Group Member)

Ann Arbor, MI

September 2022 - Present

- Designed a Figma application that tracked mobile users' carbon emissions to help inform their choices on making the planet more sustainable.
- Directed interviews for hiring valuable members with business, technology, and UX design knowledge for new cohorts by asking them subjective questions about their skills and experience.
